## 4 PROFILE SUMMARY

As a Junior Software Developer, I specialize in Front-end development with React and have a solid understanding of the MERN stack. I enjoy creating responsive and dynamic web applications that provide excellent user experiences. My strengths lie in problem-solving, adaptability, and my ability to learn new technologies quickly. I am passionate about building full-stack solutions and collaborating with teams to bring ideas to life. In my next opportunity, I am looking to further enhance my skills in full-stack development, work on challenging projects, and grow within a dynamic team environment.

## 5 EDUCATION

### 5.1 2023

B.Sc

BRR & GKR

Adikavi Nannaya University, Rajahmundry

### 5.2 2020

XIIth

BRR & GKR Chambers Degree Collge, Palakollu

### 5.3 2018

Xth

KVM Chambers Junior College, Palakollu

## 6 WORK EXPERIENCE

### 6.1 Jul 2024 – Present

Junior Software Developer

Brihaspathi Technologies Limited

I am a junior developer using React. I am also capable of handling full-stack development and can work on MERN stack projects. On a daily basis, I collaborate with my team to build responsive, user-friendly web applications, ensuring a seamless user experience. I am constantly learning and improving my skills in JavaScript, React, Node.js, Express, and MongoDB to stay up-to-date with the latest technologies.

## 7 PROJECTS

### 7.1 AI Chatbot (114 Days)

I was involved in developing the frontend for an AI chatbot, where I focused on creating an intuitive and user-friendly interface to enhance user interaction with the chatbot.

### 7.2 Visitor Management System (176 Days)

I worked on both the frontend and backend of a Visitor Management System, contributing to the development of a seamless user interface and robust server-side logic to manage visitor data effectively.

### 7.3 Trinai (31 Days)

Developed a static website for Trinai using React, detailing their product offerings.
